VOL 102, NO. 40 | CAMERON, MILAM COUNTY TEXAS, THURSDAY, DECEMBER 28, 1961 | 10 PAGES TODAY

Negro, 29, Shoots Wife, Mother - In - Law, Self

3 Deaths Occur At Branchville

Maysfield Justice of the Peace John Thweatt ruled it a double murder and suicide Tuesday night following a brief shooting rampage that ended with three dead in the Branchville Community.

Nathan W. Wells, 29, Negro, shot to death his wife and her mother in her home, then drove about a mile to his father's house and shot himself through the heart.

Sheriff Carl Black said the post-Christmas tragedy apparently started about 6:50 p. m. Tuesday when Wells, who had been working in Dallas, went to the home of his mother - in - law, Mrs. Lena Clay, 54, shot her and his estranged wife, Viola, 20 and left the scene.

'DONE THE JOB'

Witnesses told Black that Wells stopped at an uncle's house after the double killing and shouted:

"I've done the job. I've killed Lena Clay and my wife."

Then Wells drove on to his father's house, seen entering there by Constable Gilford Thweatt. While Thweatt was going to the scene of the killings, Wells shot himself, once through the left breast.

Sheriff Black said a man near the scene of the shooting of Mrs. Clay and Mrs. Wells called Gilford Thweatt, who in turn notified Sheriff Black in Cameron.

Bodies of the two women were discovered by the Precinct 2 constable. A Negro preacher, a Rev. Humble, said he was near the scene and called Thweatt.

WOMEN SHOT

Mrs. Clay was killed instantly by two shots from a .38 cal. revolver, the Sheriff said.

Mrs. Wells, shot once through the right side, was pronounced dead on arrival at a Hearne hospital.

Sheriff Black said that Wells shot himself in the left breast through the heart, then apparently staggered from one room in his father's house to another before falling dead.

By the time Constable Thweatt arrived at the elder Wells' house, the 29 - year - old Wells had killed himself.

The Milam sheriff said that Wells had two .38 - cal. revolvers.

Wells and his wife had been seperated, Sheriff Black said. Wells had been working in Dallas and drifting around. The couple had two children

Funeral arrangements were pending in Hearne at presstime for the deceased.

Air Service For Cameron?

Firm Explains Concept

A release from Cummings & Groves Aviation, Inc., of Houston, firm applying for sanction of a new airline, tells about the type of service and planes that would be used in its concept of service to small cities like Cameron.

The application, listing Cameron as a regularly scheduled stop, has been filed with the Civil Aeronautics Board. Officials of the company expect CAB action early in 1962.

Serivce to Cameron and some 30 other towns would begin about a month after CAB approval, Cummings & Groves officials said.

Officials propose to use twin-engined Piper airplanes, the 200-mph Aztec and the 185 - mph Apache. They anticipate that 15 or more would be placed in operation.

"It is the development of these two planes by Piper that makes such an airline economically feasible," Leonard Kercheval, vice-president and general manager, said.

He said the plane will be equipped for scheduled airline service with radio and navaigation equipment, direction - finding and istance measuring equipment, flight safety instrument. And experienced, qualified pilots would be employed.

The firm proposed to schedule Cameron on a route from San Antonio to Fredericksberg, Austin, Temple, Hearne, Bryan, Brenham, LaGrange, Eagle Lake, Rosenberg and Houston.

Other routes would serve Soutl. Texas, Louisiana and East Texas.

Kercheval said the planes are able to use much shorter runways than larger craft and will accomodate four, five and six passengers.

He added that service would be determined by the demand for space. Several flights daily would be scheduled in and out of Cameron and the other cities. Each flight would stop only long enough to discharge and take on passengers, mail or express, he said.

It was estimated that a three- to - five minute stop would be required to discharge and take on passengers.

Wind Whips Blaze Across 400 Acres

Fire Tuesday swept a 400 - acre tract of grass on SH 36 near Milano

Firemen from Cameron and Milano barely saved a farm house and buildings on the Wimberly property, according to Cameron Fire Dept. officials.

It was rated the largest grass fire in the area's history.

Another fire, starting about 5 p. m. Monday, destroyed the roof of a house at 1704 West 6th St. belonging to Jesse Weber. Fire Marshal John Eanes said defective wiring was probable cause.

The Milano highway grassfire endangered the buildings on the Wimberly property for an hour and a half.

Frank Richter, fire truck driver, said it was only the excellent work of Cameron volunteer firemen that prevented further damage.

High south winds carried the fire northward at a tremendous whipping speed through high grass, observers said.

The first alarm on the fire blew about 10 a. m. Tuesday, but a second alarm called for more help

No injuries were reported among firemen from either the Cameron or Milano Fire Departments.

It appeared for a time that firemen were not going to be able to control the fire during the high winds.

Youth Undergoes Special Eye Surgery

Five year old David Hollas has returned home following emergency surgery on his eye Friday afternoon at Scott and White Hospital, Temple.

David, son of Mr. and Mrs. Louis Hollas, punctured his eye with a wire while using a small wire cutter at his home. Members of the family said that extent of injury to the eye would not be certain for two weeks.

Services For Mrs. Duncan, 97

Funeral serivces for Mrs. Josephine S. Duncan, 97, were held Wednesday at 11 a. m. from the Phillips & Luckey chapel in Rockdale. The Rev. E. B. Brooks Pesbyterian minister in Austin officiated. Burial was in the Sharp cemetery.

Mrs. Duncan died Tuesday in an Austin hospital. Born March 15, 1864 in Minden, La., she married W. H. Duncan on May 12, 1886 and has lived in Milam County for the past 75 years.

Surviving are one son, Dallas Duncan of Rockdale; three daughters, Mrs. Sam Ash of Waurika, Okla., Mrs. Lenza Caffey of Tracy and Mrs. Andrew Garner of San Gabriel, 21 grandchildren, 35 great grandchildren and one great great grandchild. Two grandsons lost their lives in World War II.

Bayer Among 25 Honored At Waco

Ernest Bayer, Yoe football star, was among 25 high school players honored Wednesday night at the Waco News-Tribune's Super Centex banquet in Waco.

He was pictured in the News-Tribune with two other players whose names are pronounced the same but spelled differently. Eugene Bajer of West and Thomas Byer of Marlin were other honored at the dinner.

Services Held For Curtis Duncan

Curtis E. Duncan, 42, was buried Dec. 25 at 3 p. m.

Services for the watch repairman were held at Marek-Burns Funeral Home. Born April 21, 1919, he died Dec. 16 in Houston. The Rev. Weldon Price officiated with burial in Minerva Cemetery.

Survivors are his grandmother Mrs. W. E. Penny of Cameron and one brother Charles Duncan of Houston.

Pallbearers were Bobby Williams Charles Williams, Eddie Williams, Ronnie Williams, Gene Brown and John Wayne Clark.

102

By FML

Cameron was a gay, yet quiet city during the Christmas weekend.

The usual large number of visitors and families swelled the anticipation of Christmas, 1961, to its seasonal height.

Gaiety pervaded the atmosphere The traditional late shopping, arms filled with Yule - bright packages a bustling from car to store and back again -- these were the final moments of Christmas Saturday.

But Sunday, Christmas Eve Day and Christmas Day itself, were different. Special church services preceded the hush and awe of early morning Christmas trees.

Carols heightened the meaning of church services. Voices rose huskily with the traditional hymns. Heads bowed in the reverence of the first Christmas.

Then there was the family-filled Christmas dinners and kids clanging toys added to the din

Finally, peace, not unlike the spirit of the Day, settled silently over the city.

New Year's is a different story. Festive spirits will credscendo like the bang of holiday firecrackers, then dull and alternately brighten into 1962.

Football will make its final appearance Monday with bowl games crowding the video waves from Miami to Pasadena.

And resolutions for the New Year will be meted out, hoping to outlive the impulse that created them.

And the holiday and 1961 will be fond memories.

No Major Wrecks While 'Deathwatch' On

Law enforcement officials were still promoting 'Operation Deathwatch 1961" this week as Cameron and Milam County escaped any major auto accidents.

Police Chief Elvin Hoskins said there were only two minor scrapings with total damage amounting to about $30. No one was injured.

And Milam Sheriff Carl Black and Milam highway patrolmen said no accidents of any size occurred in Milam County. The nearest major accident was near Hearne where five were killed Monday night in a two - car collision.

During 'Operation Deathwatch 1961", the official estimate on the number of traffic deaths anticipates a total of 88 lives.

This is the lowest estimate ever made for this holiday," Gov. Price Daniel said, and it pinpoints the progress of recent years in reducing Texas traffic fatalities.

Nationally, the National Safety Council raised the expected death toll to 450 after a Christmas weekend of highway carnage.

"Deathwatch" began 12:01 a. m. December 23 and ends 11:59 p. m. January 1.

Gov. Daniel in a letter to Texas sheriffs and police chiefs said that "you will join the Department of Public Safety in cracking down hard on excessive speed and driving while drinking, the violations most frequently involved in Texas traffic deaths."

Cameron Banks Announce New Rate

Officials of the Citizens National Bank and the First National Bank announced this week that interest paid on savings accounts would be increased in keeping with new rulings by the Federal Reserve Board.

Interest will be paid at 4 per cent on accounts on deposit one year and 3½ per cent on savings of at least six months.

Banks in Temple, Killeen, Dallas, Houston and some other Texas banks have also announced the new interest rate.

Here's Babson's 1962 Financial Forecast

By Roger W. Babson

Copyright -- 1961
Publishers Financial Bureau, Inc.

1. I am hopeful for 1962; it should be a better year for my readers than 1961. Industrial production will exceed that of 1961.

2. There will be neither a nuclear war nor total disarmament in 1962. Considerable progress may be made toward a ban on atomic weapons.

3. Some thirty stocks may reach an average of 1,000 during 1962, although these will not necessarily be the thirty Dow-Jones stocks.

4. Retail trade will make new records during 1962. Increased newspaper advertising, especially in colors, will be a great boon to merchandising.

5. Commodity prices will act erratic during 1962. Agricultural prices will be held up by legislation, but many metals will sell for less.

6. The official cost - of - living-figure will rise slightly in 1962, but there may be a scandal in Washington over how this figure is calculated or adjusted. The real increase in the cost - of - living will be due to increased wages demanded.

7. The only certain shortages during 1962 will be in land suitable for parking places and waterfront property readily accessible to building lots; also for automobile "graveyards" near cities which have been zoned.

8. The building of shelters will look silly before the end of 1962. Certainly the Federal Government will not underwrite the building of private shelters for individual families.

9. Good real estate must rise in price as the population increases. Elementary mathematics determines the price of suburban real estate. This is notwithstanding the claim of the "space companies" which are said to be interested in selling rights on the moon. There probably are crazier speculations.

10. While the land on which your house now stands should increase in value during 1962, the building itself depreciates from the moment when it is first occupied. A possible exception would be certain very attractive ranch houses painted in color.

11. Automobile production will be the most important statistical indicator during 1962. This applies to both the number of automobiles and their sales value. We now have no reliable figures for the latter.

12. We will gradually approach an average of two cars for every family. The life of automobiles should gradually increase. The percentage of automobiles annually destroyed will decrease in 1962.

13. Automobiles and gasoline will be, increasingly, sources for raising money by taxation. These means will be extended to include an additional assessment on the manufacturers of automobiles.

14. Taxes, as a whole, will continue to increase in 1962 for every family. Business net taxes, however, will decrease in 1962, through the granting of depreciation refunds which can be done by Executive order. The manufacturer may greatly increase his deductions for past investments and new machinery, plant and equipment. Douglas Dillon feels that such tax reductions will increase the purchase of new equipment, develop greater efficiency, and result in a net improvement in the employment situation. This is good news for 1962.

15. Speculation in real estate and securities will be active during 1962; but good children will gradually be recognized as the best investment. Young people will be married earlier and will want to have large families.

16. Public education will gradually be reorganized during the years ahead. School houses will be built as places to "park the kids" while the parents are at work. New schoolhouses will be built so as not to be over one story high, with lots of sunshine.

17. Owing to the lack of airport facilities and to inadequate equipment, there will be increasing airplane accidents during 1962.

18. With all the above changes, plus increased public improvements and longer vacation periods, families must save somehow and cut somewhere. I think it will begin in 1962 with clothing. This will gradually become cheaper and more attention will be paid to color.

19. The time is approaching when the weaving of cloth will be greatly curtailed. Clothes will be made like paper. Plastic coats are already on the market. These are produced by feeding the cellophane into a machine which cuts to desired sizes and bonds (not sews) the material into beautifully finished goods of different colors.

20. We will hear more about automation during 1962. But the cost of building automatic factories is so great that the change is coming slowly. Even electronics has been overemphasized.

21. There need be no unemployment among steel workers during 1962. But Government unemployment figures will remain high. Foreign competition, due to low wages abroad, will be an important factor. Women will prefer to work in air - conditioned factories and have their home pantries filled with precooked foods.

22. Labor unrest will grow in extent and power. The Kennedy Administration is friendly to union leaders and their demands. There will be demands for more "fringes" in 1962. A steel strike is possible.

23. This means that with increased taxes, prices of retail products will be higher. This will be blamed on "inflation" of money; but it will be due to inflation of living standards.

24. The real value of the dollar will decline slightly during 1962, due to the decrease in the productivity of labor. The electronics industry will temporarily suffer in 1962 if atomic warfare is outlawed. But otherwise the electronics industry will increase for some years to come and hold up the dollar value. Watch Polymer Chemicals and "epoxy" cements.

25. There will be enough money for mortgages insured by the Federal Housing Authority in 1962. Plenty of money will be available for mortgages guaranteed by the Veterans Administration, although this supply varies with different sections of the country. Interest rates on conventional loans not having any government guarantees will be a little higher. Real estate people will worry about the public's desire to build, rather than about their obtaining mortgage money.

26. The kilowatt hours of electricity produced in 1962 will exceed the total of any previous year. This is favorable to utility preferreds.

27. Steel production in 1962 will exceed this year's 100 million tons, but the increase will come from producing steel in colors.

28. Cement production will be about the same in 1962 as in 1961, but the industry's capacity to produce is increasing too rapidly in view of the demand. The cement manufacturers must give more attention to colors.

29. Expenditures for plant and equipment in 1962 will increase supplemented by large appropriations for repainting factories and offices in many colors.

30. Newsprint production depends upon the number of newspapers and the amount of advertising sold. I forecast a decline in the amount of newsprint sold during 1962, but advertising receipts may increase through the better use of colors. This may result in the increased use of coated paper to better take color printing -- with a 50 per cent increase in advertising rates.

31. Furniture manufacturers are making up prices so that young couples will buy furniture in the raw and paint same themselves.

32. There will be some increases in color TV sales in 1962. In fact, I think the present TV market is far from being saturated.

33. First - class postage rates will not be increased during 1962. Hence, more money will be spent on direct mail selling. This should help job printers in 1962, as their present margin of profit is very small. Bill board advertising will increase during 1962, due to a new kind of paint.

34. Lumber will do well to hold its own in 1962 and much of it will be sold colored. Wall - to - wall carpeting will become even more popular, reducing the price of the best hardwood floors.

35. Fewer "scatter rugs" will be sold in 1962. Rug dealers must go to brighter colors, even for "orientals."

36. One of the greatest developments during 1962 will be the increased use of color in homes, offices, stores and factories. This should increase both the demand for and the price of good paint.

37. Exports will probably increase during 1962, but the surplus of trade in favor of the United States is constantly decreasing.

38. President Kennedy is encouraged by the recent elections in New York, New Jersey and Texas. This Democratic trend will continue during 1962, notwithstanding former President Eisenhower's campaign speeches.

39. President Kennedy will be more favorable to "big business" in 1962 only when he is able to use big business to increase employment. Profit margins will not improve during 1962, although most industries will do better in terms of gross and volume.

40. Bond prices will not change much during 1962. except in the case of "non - taxables." European investors are buying American stocks and bonds feeling that their money is safer in United States industries and real estate. Even the first mortgage bonds of transcontinental railroads are being bought by Europeans. The manufacturers of West Germany are making huge profits through the use of new machinery and low wages. They are sending their money to the United States to be invested. They seem to prefer suburban real estate, shopping centers, and electric utilities. I hope they are not buying into too many "fly - by - night" new electronic companies.

41. Buying of Mutual Funds will continue to exceed selling in 1962. considering that brokers make much more profit by selling Mutual Funds than by selling shares of individual stocks -- and considering the thousands of salesmen selling Mutual Funds - this should help stock prices during 1962. Remember that the Mutual Funds operators must go to the New York Stock Exchange to purchase stock to support these Mutual Funds which salesmen are selling in the field.

42. The so - called "service industries" -- including education, beauty parlors, travel, entertainment, and government positions--should prosper in 1962.

43. Among the fastest growing industries in 1962 will be the plastics and glass industries. These materials will gradually take the place of wood, stone, cement, and even some metals, -- except as these are colored. Plastics and glass will become more important building materials and perhaps be used much more for automobiles

44. Some unexpected event or discovery will cause the Dow - Jones Industrial Average to sell much higher during the next few years. As an illustration of what one of these unexpected events will be, I mention the polymer development in chemistry, including "DNA" and "RNA", which may provide the source of life and extend it -- yes, perhaps restore it, in special cases.

45. I am bullish on Canada for safe investments during 1962. Canada has a small population of only about 18,000,000, but it is rich in natural resources and has a I do not expect a nuclear war to be started by Russia; but if it comes, Canada will be a good place to live and to have your money invested.

46. South and Central America also have great natural resour-

(Continued On Page 5)

About The Author

Roger W. Babson has been making accurate yearly forecasts in business and finance for 20 years.

The Herald presents his 50-point analysis of 1962's prospects for the second consecutive year.

The average for Babson's Business and Financial Forecast during the past 21 years has been 80 per cent correct, ranging from a low of 79 per cent in 1941 to a high percentage of accuracy of 95 per cent in 1946.

A graduate of Massachusetts Institute of Technology, Babson writes a weekly forecast for 400 newspapers and 20,000 corporations and estates. A staff of experts conducts the research work.

COTTON REPORT

Trading in the spot markets was fairly active. Shipper demand was slow to moderate. Domestic mill buying was small in volume. Interest from abroad was some improved. Harvest was picking up momentum with favorable weather prevailing. Producers offered current ginnings freely.

Prices for Middling 1" cotton were firm this week quoted Thursday December 21, at 33.15 cents in Dallas, 33.25 cents in Galveston and Houston and 32.35 cents last week. Prices a year ago were 29.50 cents in Dallas and Houston, 29.75 cents in Galveston and 28.90 cents in Lubbock. The discounts widened for some qualities in the Dallas and Lubbock markets. Harvest was again under way in the late producing sections. Skies were clear and temperatures moderated. Fields dried rapidly and all available machine harvesters were in operation. Gins were builing up a backlog of seed cotton. The demand remained fair to moderate for the current ginnings. Prices weakened further for off quality cotton in most of the market. Strict Low Middling and lower White and the Light Spotted grades of good character and Micronaire were in best demand. Supplies were limited and offerings small in volume. Shipper activity was rather slow for this time of the season with buying largely for current needs.

Domestic mill interest was about unchanged from the previous week. Inquiries covered a wide range of qualities and types of the medium and lower grades. Prices were not attractive to many shippers limiting sales to a small volume for January - March delivery. Mill buying in the current harvesting areas was slower. Inquiries from abroad were fairly numerous this week. Shippers were not offering freely at the level of current prices and offers produced few sales. Countries with PL 480 allocations were the most active buyers. Interest from the Far East was some stronger and a few sales for earlier deliveries were reported.

Private sources estimate there is around a million bales to be ginner in the late producing sections. Reports were two weeks of open weather would see most of the crop out of the field. There was still some scrapping to be done in north central and North Texas. Fields were too wet for hand labor to operate this week.

Milam ASCS Report

By Milam County ASCS

Farmers who have sold wool or unshorn lambs or who plan to do so before March 31, 1962, are reminded that the 1961 wool year ends on March 31, 1962, and any applications filed after April 30, 1962, will not be accepted by the county office. In making application for incentive payments on wool and unshorn lambs, the producer must bring his original sales receipt with him. He should note whether or not his name and address are correctly given and wether or not the receipt was signed by the buyer.

Those peanut producers who do not intend to plant their peanut allotment or will plant only part of it are reminded that April 4, 1962, is the deadline for signing release forms in the cointy office. Those who release their unplanted peanut acreage will get history credit for the released acreage. Failure to release the acreage will result in a reduced history if the entire allotment is not planted. Peanut producers are requested to go over their crop plans and come by the county office as early as possible and sign release papers for the acreage not needed. On the other hand, peanut producers who desire to plant acreage in addition to that allotted to them, may request additional acreage at the county office prior to April 4, 1962.

Agricultural Conservation Practice applications will be accepted in the county office after January 1. The practices available will be brush control, stock water tanks and terraces. Applications on the A-2 practice will be accepted after February 1.

Word has been received from the ASCS State Office that the signup period for 1962 corn and grain sorghums has been set to begin on February 5 and to end on March 30, 1962. More of the details of the 1962 Feed Grain Program will be given as soon as they are available.

The 1961 Feed Grain Program year ends on December 31, 1961. However, participants are reminded that if they intend to use the same acreage for diverted acreage in the 1962 Feed Grain Program, they cannot harvest a crop off of it. If they do, the acreage will be ineligible.

County Agents Notes

Farm School Schedule Told

By J. D. Moore
Milam County Agent

Businessmen as well as farmers and stockmen are reminded to mark their calendars for the Farm Management School to be held in the Methodist Church Fellowship Hall in Cameron the afternoons of January 8 and 9.

A fine program with qualified speakers will be well worth your time.

—

A county wide screwworm program will be held on the night of January 18, in Cameron. The Milam County Farm Bureau will devote their monthly meeting program to a discussion of much publicized screwworm control program. Also, the Brucellosis program will be discussed. Qualified speakers will appear on the program.

—

Farmers Union Organization will sponsor community meetings on Animal Health Program.s The Milam County Farmers Union Organization, headed by Dick Ellison, President, will hold community meetings to hear the Screwworm and Brucellosis programs discussed during the latter part of January.

Communities suggested for such meetings are Sharp, Ben Arnold, and Gause - Milano area. Dates will be announced later.

SAFETY REMINDER

This reminder from the Texas Farm and Ranch Safety Council--Don't desert safety in 1962 for being safety conscious may have made it possible for you to be around to start the new year. Safety doesn't cost -- it pays.

AUCTION REPORT

Cattle numbered 385 at Thursdays sale with 144 hogs consigned to the market.

Prices paid were:

STEERS:		
Good & Choice Fed Steers & Yearlings	22.00	24.25
Common to Medium	21.00	22.50
COWS		
Fat Cows	14.50	16.50
Canners and Cutters	10.00	14.00
Stocker Cows	15.00	20.00
BULLS	16.00	19.00
CALVES		
Good & Choice Slaughter Calves	23.50	24.50
Common and Medium Kinds	22.00	23.00
Culls	19.50	21.00
Good & Choice Stocker Steer Calves	25.00	28.50
Heifers	24.00	Down
Medium to Good Stocker Feeder Steers	19.50	22.50
COWS AND CALVES		
Good	200.00	240.00
Medium	175.00	200.00
Plain	130.00	Down
HOGS:		
No. 1 to 3 grade, tops: 200 to 250 lbs.	16.50	17.70
Heavy Butchers 275 to 355 lbs.	15.60	17.30
Light butchers 160 to 190 lbs.	15.60	17.40
Sows (all classes 295 to 680 lbs.	13.00	15.80
Boars	9.60	10.40
Stags		12.20
Feeders (40 to 125 lbs)		14.80
Weaning pigs	1.25	4.00 ea.

In The Service

QUANTICO, Va. (FHTNC) -- Marine Sgt. Marvin H. Lindsey, son of Mr. and Mrs. Thomas S. Lindsey of Gause, was promoted to sergeant, Dec. 1, while serving at the Marine Corps Schools, Quantico, Va.

—

NORFOLK, Va. (FHTNC) -- John L. Brock, aviation ordnanceman second class, USN, son of Mr. and Mrs. Vance Brock of Route 1, Cameron is serving with Fighter Squadron 41 at the Naval Air Station, Oceana, Va.

The squadron returned to Norfolk, Va., Dec. 19, aboard the attack aircraft carrier USS Independence upon completion of a tour with the Sixth Fleet in the Mediterranean.

During the cruise, squadron members visited ports in France, Italy, Greece and Turkey.

The squadron flies McDonnell "Demon" supersonic, all - weather jet fighters.

—

MEDITERRANEAN (FHTNC) -- Charles W. Janke, radarman seaman, USN, son of Mr. and Mrs. Walter . Janke Sr., of Rt. 1, Buckholts, is serving aoard the destroyer USS Ault, operating with the Sixth Fleet in the Mediterranean.

The ship recently visited the ports of Savona and LaSpezia in northwestern Italy. Savona is known as a resort area comparable to the French Riviera, while LaSpezia's main feature is its Italitan Naval Shipyard and naval base, one of Italy's most important military installations.

Demonstration Work Reviewed

By Frances H. Johnson
Milam Home Demonstration Agent

The Milam County Home Demonstration work is carried on principally through Council and Club.

The home demonstration council met isx times with an average attendance of 18.1. The nine standing committees carried out most of the recommendations made earlier in the year.

Some of the highlights of the year were: Luncheon during National Home Demonstration Week in May honoring new members; tour of Evonomy Frniture Factory and Nniversity Museum in Austin in April; Advanced Clothing Workshop in the spring; Pecan & Food Show and annual Christmas Party in December.

A special interest workshop on Low Calorie Meals & Menus was conducted in July, as well as a Recreation Workshop.

The 4-H Council was quite active in 1961 and undertook many projects. Some of these were the Achievement Program, Livestock & Broiler Show Concession Stands, County Camp, County contests, King & Queen contest, Christmas Float and Christmas Party.

The county was reprensted in county, district and state events.

Major demonstrations carried by the girls were Foods and Clothing. The county was represented in the District Favorite Foods Show, Jr. Division and District Dress Revue, Jr. and Sr. Division.

The agent spent 11 days in In-Service Training in 1960 on the following subjects: Floriculture, Civil Defense, Program Building, Gas Equipment and Small Electrical Equipment Workshops.

The county home demonstration agent gave 25 fifteen minute radio programs, conducted leader training meetings in Foods, Home Improvement and Clothing for the adult and Recreation for 4-H. The county home demonstration agent met the six home demonstration clubs four times and its many act-Clubs 8 times in 1961.

The work of a home demonstration agent is varied and interesting.

He's coming home safe tonight

But that's not unusual at the Aluminum Company of America's Rockdale Works. In some nine years of production at the Central Texas smelting plant, Alcoans have compiled an enviable record of industrial safety.

Take last year, for instance. Only three of the plant's nine hundred employees missed more than a day's work because of injuries suffered on the job. Statistically, that's ten times safer than the men were during off-work hours.

In nine years, Alcoans have stacked up safety records as long as your arm. To list a few: Eight operating and service departments at the plant have never had a lost-time injury. One potline crew has worked more than one million man-hours without a lost-time injury. The entire plant has won two Awards-of-Merit from the National Safety Council. Twice the plant has won the Texas Safety Association's first-place award in the non-ferrous metals industrial classification. And twice it has won Alcoa's Smelting Division trophy for being the safest plant of its kind throughout the company.

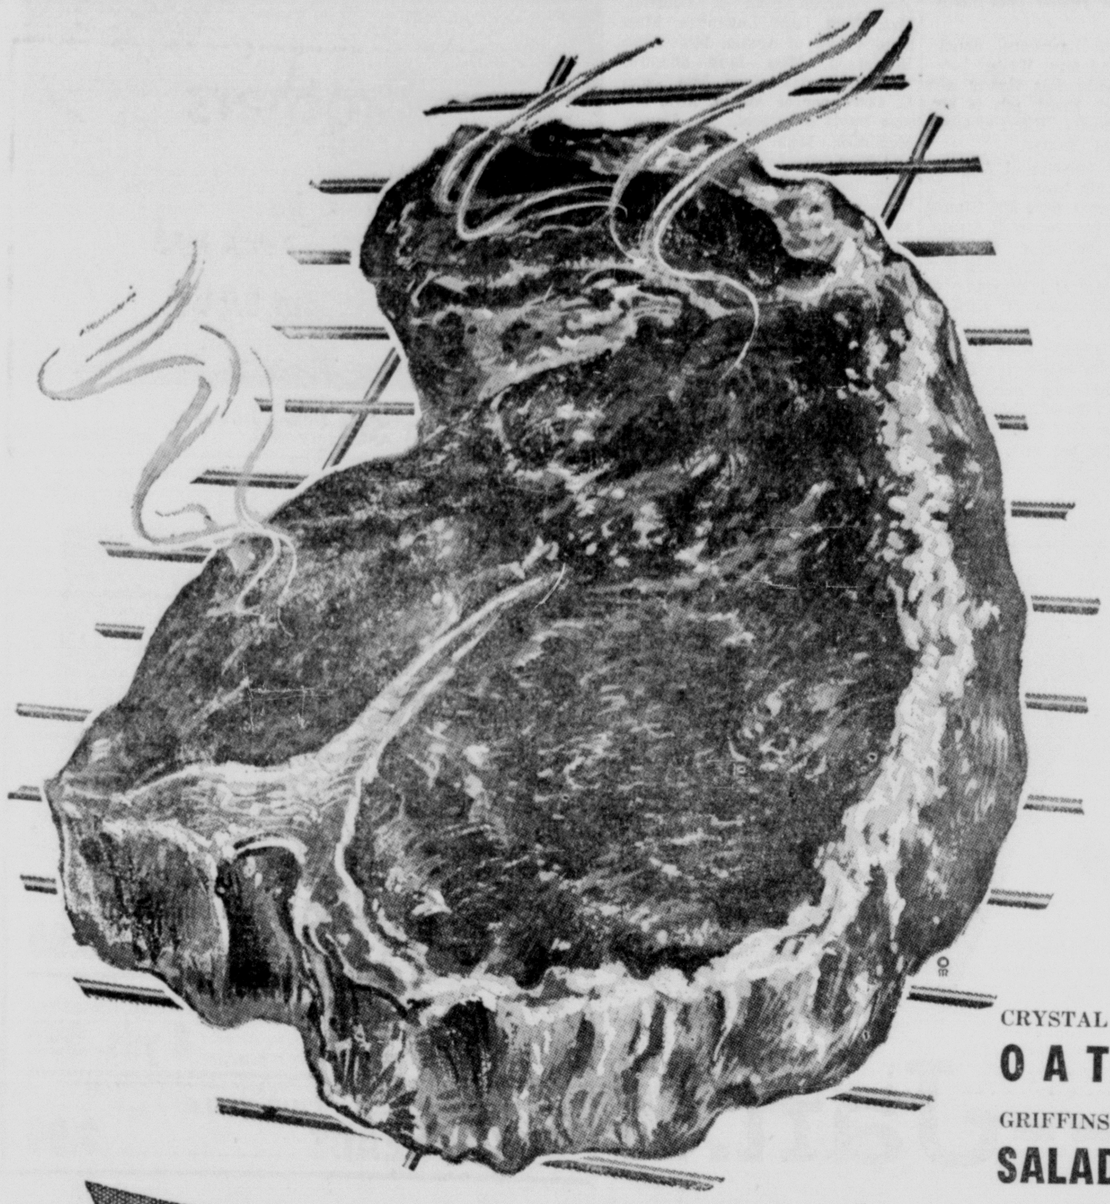

Sure, Rockdale Alcoans are proud of these records. But they'll not rest on past laurels. If we know our people, they'll always be shooting for new records.

Miss Kay Camp Exchanges Vows With Harry Johnston Saturday

Mr. and Mrs. Harry James Johnston will make their home in Washington D. C. Following their wedding December 23 at the First Methodist Church.

The bride is the former Miss Katherine Elizabeth Camp, daughter of Mr. and Mrs. Emory B. Camp, Cameron. Mr. Johnston is the son of Mr. and Mrs. Harry Johnston of Altoona, Pa.

The formal ceremony was performed before an alter banked with Southern Smilax, bronze mums and gold spiral candles. The Rev. E. J. Davis, pastor of the First Methodist Church, Mineola, officiated.

Traditional wedding music was furnished by Mrs. Hilliard Thomas, organist, and Mr. Phillip D. McCall, soloist.

Given in marriage by her father, the bride wore an original gown by Clifton Wilhite of ivory poi-de-soie with fitted bodice and long tapering sleeves. The formal gown featured a neckline beaded with rhinestones and a puffed skirt with fullness in the back extending into a chapel train. Her veil of ivory silk illusion was fitted to a pearl crown.

She carried a Bible covered by a white orchid and stephanotis and her jewelry was a pearl drop and marching earrings, a gift of the groom.

Mrs. Robert L. Ellett of Cameron was matron of honor and bridesmaids were Miss Susan Hammond of San Antonio, Miss Barbara Nan Wilkinson of Dallas, and Mrs. Jesse T. Kirk of Cameron.

Attendants were gowned identically in short formals of praline coachmen's satin with matching hats. They carried Kissing Bells of Gold satin ribbon and mistletoe.

Miss Josette Lawrence, daughter of Mr. and Mrs. Walter Lawrence of Austin was flower girl and Mr. Mark Ellett, son of Mr. and Mrs. Robert L. Ellett of Cameron was ring bearer.

Mr. Robert Johnston of Altoona, Pa., served his brother as bestman. Groomsmen were Mr. Emory C. Camp and Mr. James D. Camp, beothers of the bride and Mr. Robert L. Ellett. Candlelighters were Mr. John C. Culpepper of Austin and Mr. Jessie T. Kirk of Cameron.

The brides mother wore a dress of beige poi de soie covered with lace and matching accessories. Mrs. Johnston chose a blue watered silk dress with complimenting accessories for her sons wedding. They wore corsages of white carnations and stephanotis.

Bronze mums and southern smilax centered the serving table for the reception in the Fellowship Hall of the Church. The table, laid with a satin and tulle cloth, held a five tier wedding cake decorated with roses and orchids and toppe with wedding bells.

Guests were registered by Miss Marian Thomas and Miss Carol Ann Wilson, both of Cameron. Others in the houseparty were Mrs. Norwin Hughes, Mrs. Carl Hill of Florida, Mrs. Thomas G. Collins, Mrs. Warren Rinn of Houston, Mrs. John Todd Lawrence, Miss Sandra Law of Austin, Miss Jane Hennerson, Miss Judy Shapiro, Mrs. Hilliard Thomas, Mrs. John C. Culpepper of Austin, Mrs. Ernest Davis of Mineola, Mr. Dewey McElrath, Miss Marilyn Hnghes and Miss Jean Lester.

For their wedding trip to Salado, the bride wore a suit of beige raw silk with matching hat and gloves, pale green alligator shoes and bag and an orchid corsage.

The bride attended the University of Texas, Austin, where she majored in Business Administration and was a member of Zeta Tau Alpha. Mr. Johnston received his B. A. degree in Business Administration from Rollins College, Winter Park, Florida. He is a member of Sigma Nu Fraternity.

PM

Guests Sunday in the home of Mr. and Mrs. Smith Barrett were Mr. and Mrs. Auddis Franklin of Bryan, Mr. and Mrs. Littleton Barrett, Mrs. J. R. Wallace and Miss Pat Matula of Cameron.

Miss Bullard Weds C. E. Parker In Milano Rites

In a candle light ceremony in the First Baptist Church of Milano at 8 p. m. December 9, Miss Betty Jane Bullard daughter of Mrs. A. A. Bullard became the bride of Cecil Edward Parker, son of Mr. and Mrs. H. E. Parker, of Thorndale.

The vows were read by Rev. Russel Lester of Waco. Wedding music was furnished by Miss Carolyn Brymer. The alter beld baskets of white mums.

The bride, given in marriage by her brother - in - law, Jimmy Stanford, wore a white sheath dress. She carried a bouquet of white carnations on a white Bible.

A reception was held following the wedding in the recreation building of the church. The brides table was covered with a white net table cloth over white linen which held a three tiered wedding cake. Miss Trudy Elsenburg registered the guests, Mrs. Taylor La Grove presided at the punch bowl and Mrs. Iva Parriett served the cake.

After the wedding the couple left for a short trip to Galveston.

Mrs. Phillip Lee Kyle

Miss Ward, Mr. Kyle Wed Saturday

Miss Linda Lee Ward became the bride of Philip Lee Kyle Saturday at Orange.

The bride is the daughter of Mr. and Mrs. E. E. Ward of Cameron and the groom is the son of Mr. and Mrs. J. M. Kyle Jr. of Orange.

Dr. Cooper Waters performed the double ring ceremony in the Slade Memorial Chapel. Large white gladiolas and mums decorated the altar, with candelabras on each side.

Mrs. B. R. Talmadge furnished traditional wedding music. Mrs. Bruce Bidwell sang "Whether Thou Goest" and "The Lord's Prayer".

Given in marriage by her father, the bride was attired in a formal length princess style dress of white peau de soie, fashioned with scooped neckline, a bouffant skirt that ended in a court train. Long tapered sleeves fastened at the wrist with covered buttons. Re - embroidered alencon lace trim was featured on the skirt and bodice.

Her imported illusion veil fell from a crown of pearl and lace hearts. She carried a white orchid surrounded with carnations, silver bells and english ivy.

Attending the bride were Mrs. H. W. Moody, sister of the bride, from Orange as Matron of Honor. Miss Eliabeth Hauk of Houston was bridesmaid. They wore red velvet dresses featuring long sleeves and bouffant skirt. They carried white carnations trimmed with red ribbons.

Jack Kyle, brother of the groom of Austin served as bestman. Groomsman was James Norman Kyle also a brother of groom.

Ushers were Howard Moody, Bill Lawler, Danny Bonnin and Sharon Bearden.

Mrs. Ward chose a teal blue dress with gold accessories and a white orchid corsage. The grooms mother wore a natural colored suit with matching accessories.

Following the ceremony, a reception was held in the parlor of the First Methodist Church. The bride's table was covered with white lace and centered with red and white carnations.

The four tired wedding cake was topped with a minature bride and groom.

Mrs. Raymond Bartolueci and Mrs. Jim Miller served in the houseparty. Miss Mariiyn Felips registered the guests.

For a wedding trip to New Orleans, the bride chose a red dress with black accessories. The couple will be at home in Orange.

The bride is a graduate of Yoe High School and is presently employed with Spencer Chemical Co. in Orange. The groom graduated from Starls High School and attended Texas University. He is a member of Kappa Sigma Fraternity and is presently stationed at Fort Polk, La.

Mrs. Bobby Ray Elliott

Kirk, Elliott Vows Repeated Here

In a candlelight ceremony at the First Baptist Church on Friday evening, Miss Wanda Lanelle Kirk, daughter of Mr. and Mrs. J. L. Kirk, Sr., and Mr. Bobby Ray Elliott, son of Mr. and Mrs. Ernest Elliott, were united in marriage before an altar flanked by spiral brass candelabras featuring red candles. Rev. Jewel Strong performed the double ring ceremony.

Mrs. Jesse T. Kirk of Cameron was matron of honor and Miss Gloria Boyls of Temple was maid of honor. Ray L. Green of Dallas was best man. Groomsman was Guy Dillon of College Station. Ushers were J. L. and Stanley Kirk of Cameron, brothers of the bride.

Music was presented by Mrs. Bill Crockett, organist, and Mrs. Stanley Fikes, soloist, both of Cameron.

Given in marriage by her father, the bride wore a full length gown of ivory silk peau de soie featuring a V - shaped neckline. The bouffant skirt of unpressed pleats formed a chapel train in back. Seed pearls and irridescent sequins on embroidered Alencon lace defined the fitted waistline and sprinkled the front of the dress. Her tulle veil, edged with scalloped chantilly lace, was held by a crown of seed pearls and sequins. She carried a cascade bouquet of white feathered carnations entwined by nylon tulle and seed pearls centered with a white orchid.

Her attendants were attired in identical street - length dresses of red velveteen, featuring a scoop-neckline and long tapered sleeves fur muffs and hats completed the ensemble.

The bride's travel costume was a grey wool suit with white leather trim and matching accessories. Her corsage was the fucia throated orchid from her bridal bouquet.

The reception was held in the Fellowship Hall. Th ebride's table covered with white satin and trimmed in red tulle, centered red poinsettas. At one end of the table was the three - tiered wedding cake served by Mrs. Warren Rinn of Houston. Mrs. K. D. Griffin of Yarrellton presided at the crystal punch service. Miss Janice Bridges registered the guests. Other members of the house party were Mrs. Jack Tumlinson and Mrs. Calvin Kraemer both of Cameron

After a short wedding trip, the couple will make their home at X4J-Hensel Apts, College Station, while Elliott completes his education at Texas A & M College. Both the bride and groom are graduates of Yoe High School.

The bridegrooms parents were hosts Thursday evening at a rehearsal dinner for the bridal party at The Texan Cafe.

(Continued From Page 1)

ces; but most of their countries are ruled by selfish dictators. I believe most of our southern neighbors will suffer from serious inflation during 1962 and become a great problem for the United States.

47. Although the countries of Europe could be the greatest sufferers in case of World War III, the people I meet in Europe fail to realize this. I forecast that they will look at the situation more realistically during 1962.

48. West Germany is very prosperous; East Germany is in terrible condition. Much unemployment exists in Italy, France, and even Great Britain. I advise against investing money in Europe during 1962.

49. I am uncertain how to advise about Africa. But it is very rich in natural resources -- including gold, diamonds and almost every metal -- as well as having the greatest undeveloped waterpower in the world. Barclays Bank I am personally acquainted with and recommend. Both Barclays and the Standard Bank are owned in England and have a great many branches; the latter has over 850 branch offices in Africa. Readers who are interested in keeping in touch with Africa may secure free of charge the Standard Bank Monthly Review by writing the Standard Bank of South Africa, 10 Clement Lane, London, EC 4. The banking of Northern Africa is controlled by the French. I would advise against putting money into Norther Africa during 1962.

50. The final result of 1962 -- whether it will make us a stronger or a softer nation -- spiritually, physically, and mentally -- depends upon our parents, teachers, preachers, and newspaper publishers.

1962 Holds Bright Outloook . . .

The economists are predicting a big year in 1962. Alcoa's leaders estimate next year as a turning point in the world - wide consumption of aluminum.

These favorable outlooks are much brighter than those of a year ago.

This would mean a better outlook for Milam County, a transition - stage area moving to broader uses of the most up - to - date agriculture methods in livestock, cotton, poultry, dairying and other basic agriculture commodities.

Alcoa's economic influence in Milam County is already well established So when Alcoans forsee a better future for aluminum, it should mean more aluminum production for Rockdale's Alcoa plant.

We are told that Milam farmers are making greater use of fertilizers and buying more specialized equipment for cultivating and producing their crops.

Hardship came to some areas of the county where late cotton produced less than expected. But resiliant Milam farmers are looking to a better year in 1962.

And with economists looking to a better year, probably a record for industrial production, particularly automobiles, the same should apply to Milam County.

Always hopeful, we look toward a better year, looking back on some real advances in Cameron itseif. Building permits exceeded the $100,000 mark, commendable in view of the 1960 building year which approached the million dollar mark.

It will be much easier to find confidence in the 1962 crystal ball, despite the pressures of foreign involvements which seem less critical at the moment than six months ago.

The strength of Milam County's future is in her people . . . hardworking, sturdy people. The year 1962 can be another link in the chain of time that will bring greater prosperity to Milam. We are hopeful. And we wish everyone a Happy New Year in a brighter 1962.

New SS Rate Scheduled For Most Workers

On January 1, 1962, a new social security tax goes into effect for nine out of ten working people.

For employed people the 1962 rate is 3 1-8 percent for employee and employer, a total increase of one - fourth of 1 percent. For self - employed people, the new rate is 4.7 percent, an increase of three - sixteenth of 1 percent. The maximum taxable earnings remain $4,800 during the tax year in earnings, net income from self-employment, or a combination of both.

In dollars and cents the increase means that an employed person earning $4,800 or more during 1962 will pay $150 in social security tax instead of the $144 he paid on these earnings in 1961. With 52 weekly checks totalling $4,800, about 12 cents more will be withheld from each check. His empolyers tax will also be about 12 cents more a week.

A self - employed person netting as much as $4,800 will pay $225.50 instead of $216 for the year. Spread over 12 months, this is about 79 cents more a month, or by the calendar quarter, $2.38 more.

In line with its policy of setting a schedule of social security tax rates sufficient to meet the cost of all present and future insurance benefits, the Congress provided for the increase to finance four significant program changes effective with the 1961 amendments signed by President Kennedy late last June. These changes:

1. Enabled men to apply for reduced old - age insurance benefits at age 62.

2. Increased by about 10 percent montly benefits due 62-year-old or older widows getting benefits on the accounts of their husbands, and dependent widowers and dependent parents.

3. Increased the minimum old-age benefit payable to a 65-year-old or older retired worker or to a sole survivor of a deceased worker from $33 to $40 a month, with corresponding increases for dependents and other survivors of workers due less than $40 a month in unreduced benefits under the old law.

4. Reduced the amount of work needed to qualify for benefits, allowing many workers, dependents, and survivors who were not eligible under previous work requirement provisions to get benefits.

THESE TRUTHS WE MUST HOLD

No. 8 of a Series

IS HUMAN NATURE WHAT WE MAKE IT?

Americans believe:

Men, as individuals, are "endowed by their Creator with certain unalienable Rights," and "among these are Life, Liberty, and the pursuit of Happiness." So states the Declaration of Independence. The government created by the Constitution of the United States was designed, for the first time in history, to liberate fully the enormously constructive energy in the endowed nature of man. The results speak clearly for themselves. The great American wilderness became the world's leading nation. Governments and laws have the power to frustrate human nature, take away liberty, and destroy the individual, but the nature of man *remains what God made it.*

Communists believe:

Man is nothing more than a superior and highly adaptable animal whose desires and habits depend upon training and environment. Economically, man is a superior machine — a source of muscular and mental energy — whose value to the Communist cause depends upon the use of his energy as directed by the state. Through indoctrination, the human mind can be kept free of the impulses that drive man to seek personal property and success for himself and his family. In order to shape human nature to fit the needs of the government, it is permissible for the state to employ terror and to disregard humanitarian considerations and individual rights.

ETERNAL VIGILANCE IS THE PRICE OF LIBERTY
To renew and awaken interest in our precious heritage of Freedom, and its superiority over the Communist philosophy, these messages are being published by the Texas Power & Light Company, an investor-owned, tax-paying electric utility.

TEXAS POWER & LIGHT COMPANY

Alcoa Execs See 1962 As 'Year For Aluminum'

Special To The Herald

Three top executives of Aluminum Company of America see 1962 as a turning point year for Alcoa and the aluminum industry, with heartening prospects of substantially improved sales and earnings in the 12 months ahead.

Factors already favoring both the brighter outlook in general, and Alcoa's position in particular, were outlined in New York recently by Lawrence Litchfield, Jr., Company president, Theodore W. Bossert, vice president in charge of research and development, and F. J. Close, vice president and general sales manager.

The three Alcoa officials spoke before the New York Society of Security Analysts in that organization's headquarters in Manhattan.

Litchfield, who centered his remarks on Alcoa's operating and financial aspects, said his Company expected fourth quarter revenues to be "the best of the year," despite recent industry price cuts. Net income for 1961 should exceed last year's $40 - million Litchfield said, "and we are hopeful that our shipments and revenues will increase about 10 per cent in 1962. Should this happen in the pattern we expect, net income next year should be substantially higher."

EARNINGS BETTER

Alcoa's earnings position already is bettering as a reflection of the Company's "success in reducing overhead costs and improving production efficiency," he said.

"As the pricing policies of this industry begin to make more sense, we will have our costs in shape to provide a much better return on our shareowners' investment," he added.

Alcoa's large reserves of raw materials and power resources for future needs, and its possession of 172,000 tons of partially completed primary smelting capacity which can be quickly brought in to production at the "lowest cost per ton in the industry," were cited in detail by Litchfield.

"They insure," he said, "a long-term cost structure which our competitors should find most difficult to match."

Bossert, in his comments, noted that Alcoa, from its very beginning, has continued to devote more money and manpower to research and development than any other aluminum producer, "all of it designed to promote aluminum and enhance the Company's earning power."

He said, "the competitive nature of our present economy, and of the aluminum industry in particular, makes it more and more necessary to condense the time needed to move laboratory developments into the market place."

MARKET TREMENDOUS

Close told the analysts that the marketing potential for aluminum was never greater than at the moment, because "the basic characteristics of aluminum equip it uniquely for use in our time, when speed and mobility and freedom from maintenance count so much."

He said that, through the years, Alcoa has assumed substantial responsiblity for the development of new markets, and believes this to be an obligation of a basic producer, even though these markets, when developed, are shared by fabricators who are not necessarily Alcoa's customer.

To illustrate, Close pointed to the rapidly increasing unit use of aluminum in homes, high - price apartments, and commercial buildings, in passenger autos, trucks, trailers, mobile homes, and railroad cars, by the electrical, machinery and equiment industries in packaging, and now, in aircraft and space applications.

In a year - end statement issued this week, Litchfield foresaw an acceleration of an already rising demand for aluminum, with a consequent improvement during 1962 in industry shipments.

He said, also, that Alcoa has vigorously utilized the past two years of relatively slack demand to achieve cost - cutting measures, ultra - modern plant facilities and a refinement and streamlining of its research, development and sales approaches to a degree of efficiency which can capitalize quickly on any strong upturn.

The Alcoa executive noted that his Company's 1961 capital expenditures, including those for all domestic and foreign wholly owned subsidiaries, totaled approximately $68 - million, and that 1962 capital outlays would be in the area of $75 - million.

1961's PROBLEMS

The aluminum industry's major problems during 1961 continued to be an imbalance between supply and demand, weakness in prices, competition from other materials, and imports from foreign producers enjoying lower wage costs and the advantages of more liberal tax, depreciation, and export aid policies than those of the United States.

Litchfield pointed out that the seriousness of inequitable foreign competition recently prompted the U. S. aluminum industry, including Alcoa, to propose a plan to moderate the disruptive effect of imports of certain mill products. Under the plan, industry and government together would attempt to work out voluntary international agreements aimed to achieving orderly import - export patterns, including equitable import tariffs on American - made aluminum products seeking foreign markets.

Dateline — Austin

Traffic Watch Pushed By Gov.

By Vern Sanford

AUSTIN — "Operation Deathwatch," which began Saturday midnight and ends at midnight New Years Day, is the most urgent business of the Governor's office

Gov. Price Daniel has written every Texas sheriff and chief of police, asking each law officer in Texas to help make the State's streets and highways safer for Texas drivers during the 10 - day holiday season.

Governor Daniel said the anticipated toll of 88 holiday traffic deaths is the lowest estimate ever made, and stated "It pinpoints the progress of recent years in reducing Texas traffic tragedies during the year - end holiday. However, even more lives can be saved this year if the people obey the laws and drive safely."

Newspaper publishers, the Texas Press Association, broadcasters and billboard owners are cooperating in the campaign, urging Texans to take individual responsibility for traffic safety, and asking drivers to keep headlights burning during daylight hours as a reminder that safe and legal driving is the best way to avoid holiday crashes.

BANKS STILL BALK

Most Texas banks balked at the Legislative committee's request that they make their dormant accounts public.

Five of the 38 banks subpoenaed to appear before the committee filled out questionnaires by deadline time. Twenty - two banks were represented at the hearing. Eleven failed to show up.

Houston's City National Bank attorney Raybourne Thompson, speaking on behalf of all 22 banks present, and two others, requested that the committee get an opinion from the Atorney General as of whether it has the power to force testimony "that would destroy banker - depositors confidences."

Thompson said if the committee refused, the banks would testify "under protest."

Committee had sent questionnaires to 469 national banks in Texas. Only 66 gave some or all information about the number of dormant accounts they hold and the amounts in their accounts.

Out of the 536 state banks queried by the committee, only 100 furnished the information.

Prime reastn for the specially called session by Gov. Price Daniel is the enactment of laws to force banks to locate the owners or heirs of unclaimed depositories.

Governor Daniel feels that little effort is being made by the banks to find the rightful owners. He says that more than $3,000,000 is being held unlawfully by the financial institutions. Some banks are even levying charges against the accounts even though the accounts are inactive, he reports.

Few, if any of the banks, have ever advertised to find the rightful owners.

Governor Daniel feels that the banks should exert every effort possible to locate the owners, including advertising, or turn the funds over to the state for the protection of the depositors. Such steps have been taken in a number of other states.

HOPEFUL SIGN

Texas Commission on Alcoholism reports good results in its six-year old program of rehabilitation for alcoholics in state hospitals, and progress with prison system inmates. But it is still concerned about the estimated 250,000 drinkers in Texas who need treatment.

Commission says 2,334 patients were treated for alcoholism in six state hospitals during fiscal 1961.

Improvement after six months from date of discharge was reported by about 5,000 out of 1,600 patients released last year.

In less than 18 months, the number of alcoholics participating in prison rehabilitation programs has grown from 800 to 3,000.

Commission now lists councils on alcoholism in 29 Texas cities, working to educate the public to recognize alcoholism as a disease. Their attempts are aimed at the 250,000 ailing alcoholics and their families -- as well as the 4,000,000 Texans who use alcohol.

CHAIRMAN CHALLENGED

Gubernatorial candidate Will Wilson has charged State Democratic Executive Committee Chairman J. Ed Connally with reserving the committee's mailing list of 20,000 Democrats for incumbent governors, "to the exclusion of other Democrats outside the Executive Committee itself."

Wilson contended that the list is the property of all Texas Democrats. He asked the committee to adopt a resolution making the mailing list available to all Democratic candidates, for use in party primaries.

Wilson has accepted an invitation to face opponent John Connally in a debate.

LITTLE RIVER PHILOSOPHER

Philoospher Claims Farm Experts Don't Know What They're Talking About On 1962

Dear editar:

I was out here on my Johnson grass farm winding up my 1961 farming activities about like I wound them up the year before, and was trying to remember whether I wrote down the cost of some feed I bought on the north side of the barn or on the door to the chicken house and was wondering what would happen if the Internal Revenue Service ever asked me to bring my records in.

I moan, it wouldn't be any trouble to take the chicken house door down, the hinges are loose anyway, and I can rip a board off the barn by untieing the wire holding it, but it would be sort of unhandy carrying them to town.

At any rate, I found the figures but they were pretty badly faded so I guessed at them, in the government's favor, of course, as I recognize the government has promised to spend more money next year than I have. This is because more poeple will take the government's promise than they will mine.

With my bookkeeping work out of hte way, I settled down with a newspaper and the first article I read was a forecast on the farming outlook for 1962. It's bad, the prediction reported. In fact, it was headlined: FARM OUTLOOK BAD FOR 1962.

This may show how much the experts know about the farming outlook, but it also shows how little they know about farmers.

At the start of any year, the farming outlook to a farmer is good. It has to be. That's the whole secret of farming, and explains why America produces more food than any other nation on earth.

The reason a farmer knows the new year will be better than the last year is that he knows he hit rock bottom in that one. He's always known this. He knows it every year. Regardless of what the experts say, a farmer knows the new year is bound to be better than the old one, and this explains why the crops get grown. A farmer is the type of person who, when he finds out he can make only ten cents profit on a bushel of something, will try to raise four in order to make 40 cents, and when he finds out he didn't make 40 cents, only 15 cents, he figures his mistake was in not having shot for eight in the first place. This results in a well - fed nation and an under - paid farmer.

They way I see it, 1962 will be all right. In fact, 1961 was too and could have been better if I'd worked harder, but when it comes to a choice between a sorry year and working harder, you know which one I choose. I figured out long ago the worst way to whip a surplus is by piling more on top of it.

Yours faithfully,
J. A.

Buckholts —
Holiday Guests Visit Relatives

By Mrs. J. W. Meyer

Holiday guests of Mrs. Emil Roesler included her children and grandchildren Mr. and Mrs. Walter Roesler of Waco, Mr. and Mrs. Joe Zajicek and son, Jackie, Mr. and Mrs. Joe Dean Zajicek and son, David, Thorndale, Walter Zajicek, of Waco. Also Mrs. Pearl Meeser of Waco and Miss Lydie Tomisek of Buckholts.

Mr. and Mrs. Frank Zajicek's holiday guests included their son and family S-Sgt. and Mrs. Woodrow Zajicek and children of San Antonio and another son, M-Sgt. Frankie Zajicek stationed with the Air Force in Ill.

Guests of Mr. and Mrs. J. W. Meyer were their son and family, Mr. and Mrs. John R. Meyer and children and Mrs. Meyer's sister, Miss Smithie Ritchie of Dallas.

Mr. and Mrs. E. B. Hyer have as guests their son - in - law and daughter Mr. and Mrs. Bruce Storey of Baton Rouge, La.

Mr. and Mrs. J. R. Slovacek spent the Christmas holidays in San Antonio as guests of their son and family, Mr. and Mrs. Marvin J. Slovacek.

Guests of Mrs. Millie Krall have been her daughter and son-in-law, Mr. and Mrs. Joe Weatherford of Houston and her son's family, Mr. and Mrs. J. Z. Krall, Richard, Nancy and Clifford of Cameron.

Mr. and Mrs. Louis Svetlik spent the Christmas holidays in Austin where they were guests of their son - in - law and daughter, Mr. and Mrs. Urfa Adams and children.

Mr. and Mrs. Rudolph Zedlitz had as guests their son and family, Mr. and Mrs. Louis Zedlitz and daughters, Carolyn and Marilyn of Houston.

Mrs. Seth M. Corley is reported to be recovering from a three week bout with the Asian Flu. The Corley's son, Seth N. Corley was joined here by his daughters, Jamie and Jenny Lee of Grand Prairie to spent the Christmas holidays with their parents and grandparents.

Mr. and Mrs. J. D. Lewis's guests have been their children Mr. and Mrs. Douglas Lewis and son, Paul of Houston and Mr. and Mrs. Bill Gause and children of Gause.

Mrs. Louisa Bolf's guests have been her son - in - law, and daughter, Mr. and Mrs. Ed Nechhes of Ft. Worth.

Mr. and Mrs. C. J. Yanerro and children Rebecca and Jennifer Sue of San Antonio visited her parents Mr. and Mrs. E. E. Phillips.

Mr. and Mrs. Raymond Wall, their daughter Miss Judy Wall and son - in - law and daughter Mr. and Mrs. James Tate of Vernon visited in Brady Sunday for a family get - to - gether at the home of Mrs. Wall's sister and brother-in - law, Mr. and Mrs. L. E. Scott. The Walls and their children spent Christmas day at Marble Falls for a family get to gether of the Wall family at the home of his mother, Mrs. T. B. Wall.

Mr. and Mrs. Fritz Glaser had as their Christmas holiday guests all their seven children and their families including: Mr. and Mrs. Albert Willie, Bellaire; Mr. and Mrs. Johnny Snyder and Barbara Ann, Mr. and Mrs. Johnny Glasser and Margie of Houston; Mr. and Mrs. Arnold Jungmann, Yarrellton, Mr. and Mrs. Willie Glaser, James Edward and Carol Wayne Rogers; Mr. and Mrs. Bentley Haas and Pamela of Cameron; Mr. and Mrs. Joe Glaser, Stanley, Joe and Richard, Mr. and Mrs. Arnold Glaser, Gene and Don of Buckholts A grand - son and his wife, Mr. and Mrs. Donald Ray Glasser of Dallas. Other guests were a nephew and wife, Mr. and Mrs. Buddie Senkel and Kathie of San Antonio; a niece and family, Mr. and Mrs. Erwin Weid and daughters, Janie and Jolene of Cameron. Mrs. Glaser's sister, Mrs. Joe Heibert of Cameron. Others were Misses LaVelle Fischer and Janette Fuchs and Mrs. Elena Wallace and children Pat, Kathy and Gill Wallace of Cameron.

ROOT ROT REDUCED

Over 5,000 Texas cotton farmers reduced root rot damage by deep plowing more than a quarter million acres during 1961 according to year - end reports from county agricultural agents. Demonstration results indicate that on fields where losses have ranged up to 75 percent were cut to 5 percent or less by deep plowing- 1 to 18 inches -- and by turning under large amounts of organic matter and letting the soil dry for periods of from 10 days to two weeks.

New Year!

What secrets hold your days;
What mysteries conceal;
What to merit praise,
And what of woe or weal?

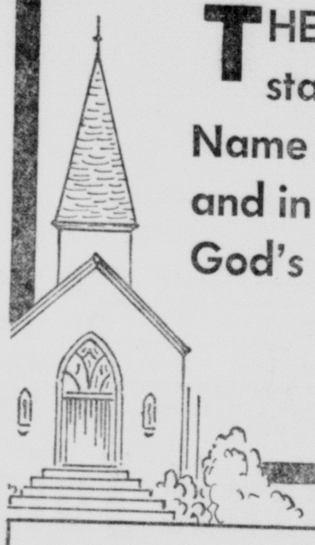

What pathway lies before;
What danger, fortune mine;
What clouds above thee lower,
Or lights amid thee shine?

What heart-ache will you bring;
What longing will you fill;
What to make me sing,
Or what my soul to chill?

What e'er your store may be
To please and satisfy;
What to blight or rob me,
Or what to gratify - - - -

Grant me strength of manhood,
And hope, my way to ply;
Grant me zeal for good,
Nor faith in God deny!

Wm. B. Waldrop

THE CHURCH, with compassionate understanding, stands dedicated this New Year to minister - in the Name of Christ - to your needs: moral, spiritual, physical; and in the midst of this ministry, to help you appropriate God's abiding promise:

"As thy days, so shall thy strength be."

Deuteronomy 33:25.

"Other foundation can no man lay than that is laid, which is Jesus Christ" (1 Cor. 3:11)
